## **DETAILED ACTION**

## Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over EP 0 125 215 or EP 1 208 782. The references to EP 0 125 215 and EP 1 208 782 disclose the claimed invention except for forming the housing for at least two chambers of different "diameters". It would have been obvious to one having ordinary skill in the art at the time the invention was made to have adapted the chambers of the prior art references EP 0 125 215 or EP 1 208 782 to receive cartridges having different "diameters" as opposed to different "heights", since where the general conditions of a claim are disclosed in the prior art, discovering the optimum or workable arrangement involves only routine skill in the art. *In re Stevens*, 101 USPQ 284 (CCPA 1954).

Allowable Subject Matter

Claims 2-11 are objected to as being dependent upon a rejected base claim, but

would be allowable if rewritten in independent form including all of the limitations of the

base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are

moot in view of the new grounds of rejection.

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Timothy F. Simone whose telephone number is 571-
